Brilliant Career of Racing
Dog Comes to End in
a Hospital

BERKLEY, Cal., May 17.—Baldy
of Nome, once the "toughed dog in
all the northland," died recently in
an animal hospital in Berkley, far
from the long Alaska snow trails
over which he "mushed" his way to
world-fame several years ago.
Driven by A. A. (Scotty) Allan,
Baldy was the load dog in the noted
racing team owned by Mrs. C. E.
Darling which won six of the AllAlaska aweepstakes races across the
Seward peninasia from Nome to
Candie and back, 418 miles in all.
During the war, a number of
Alaska dogs, sired by Baldy, were
shipped to Europe by the French
government for service in the snowclad Alps, and today many are still
overseas where their "grey wolf's
blood" won for several of them the
rolly de guerre.

Baldy's last sweepstakes was run
in 1917 and after the race Allan
brought the dog to Berkeley, where
he and Mr, and Mrs. Darling had
settled. Two years ago Mrs. Darling put Baldy's life-story into a
hook and also wrote some verses for
the dog—things he would have said
if he could.

That marked the end of the killing pace
As we crossed the line in the sweepstakes race."

Baldy was 15 years old and died of old age. He was born in 1907 and spent most of his life in harness for he was only two years old when he was made the leader of the Allan-Darling team. He was buried beneath the rose bushes in the Allan yard here. CALVIN O. SMITH Municipal Bonds Bought and Sold
